MESSAGE FROM THE CHIEF OF POLICE

Welcome to the Statesboro Police Department's 2024 Annual Report. We take pride in the high level of service we provide to our community, and the Annual Report provides us an opportunity to provide you with a lot of information. We started 2024 with an enhanced pay package for our staff, thanks to the City Council's commitment to providing resources for Public Safety. We had been struggling with our overall staffing and the Pay Plan has definitely had a positive impact on retention and recruitment. Additionally, our Mayor, City Manager, and City Council have embraced our use of technology and have committed the necessary funding to support our Precision Policing project. The addition/growth of the Fusus video sharing platform, as well as The Flock license plate reader system, have made us much more efficient and effective at creating leads and identifying criminal suspects.

In 2024 we were able to put the Impact Team back in service after a short hiatus. The Team has been expanded to include a Crime Analyst and a Task Force Officer assigned to the regional GBI Drug Enforcement Unit.

Our Department credo, *Duty, Honor, Community* is lived out in our day to day commitment to providing great service, training our officers to the highest level and recruiting and retaining the finest officers, dispatchers, and professional staff.

I hope you enjoy reviewing the information in this Report!

FUSUS

FUSUS IS A CLOUD-BASED MAP INTERFACE THAT COMBINES PRIVATE AND PUBLIC VIDEO STREAMS INTO A SINGLE FEED, ALLOWING FOR EASE OF ACCESS BY OFFICERS AND DISPATCHERS, IN REAL TIME. OUR OFFICERS, THROUGH THEIR VEHICLE ON-BOARD COMPUTERS, ARE ABLE TO ACCESS MORE THAN 1,000 VIDEO CAMERAS AT MORE THAN 70 SEPARATE LOCATIONS THROUGHOUT THE CITY. LIKEWISE, OUR DISPATCHERS ARE ABLE TO ACCESS THESE SAME CAMERAS IN THE COMMUNICATIONS CENTER AS THEY ARE SENDING OFFICERS TO A SCENE. THIS ENABLES OFFICERS TO BE SAFER AND MUCH MORE EFFICIENT WHILE HANDLING CALLS, AND AIDS IN OBTAINING VIDEO BASED EVIDENCE AFTER THE FACT. WE ARE ABLE TO ACCESS PRIVATE VIDEO FEEDS THROUGH AGREEMENTS WITH THE OWNERS OF PRIVATE VIDEO WHO ALLOW US TO ACCESS THEIR SYSTEMS THROUGH THE FUSUS APPLICATION. AS MORE LOCATIONS AGREE TO VIDEO SHARING ACROSS THE CITY, THE MORE EFFICIENT AND MORE PRECISE WE CAN BE.

FLOCK

FLOCK IS A SYSTEM OF INTERCONNECTED LICENSE PLATE READERS THAT PROVIDE REAL TIME DATA TO OFFICERS IN THE FIELD. SPECIFIC LICENSE PLATES CAN BE ENTERED INTO THE SYSTEM AND WHEN ONE OF THOSE VEHICLES PASSES A FLOCK CAMERA, THE INFORMATION IS AUTOMATICALLY TRANSMITTED TO THE OFFICERS IN THEIR OP PATROL CARS. THESE SYSTEMS HAVE BECOME SO USEFUL IN OUR OFFICERS' AND DISPATCHERS' EVERYDAY LIFE, THAT IT HAS BEEN LIKENED TO A PHONE OR COMPUTER IN THAT THE AMOUNT OF TIMES THEY ARE UTILIZED IN INVESTIGATIONS WOULD BE NEARLY IMPOSSIBLE TO CALCULATE.
