

## Call to Action!

### Join the Movement to Light-Up Guelph Green!

We, Guelph Tourism, The RTO4, and the Guelph Barrier Free Committee, are on a mission to make our city a more inclusive and welcoming place for everyone. We need your help to map out a more accessible Guelph, and it starts with a simple tap on your phone or click on your computer.

Participate in the MapMission!

**Download the free [AccessNow](#) app** or visit the desktop version today. Share your experiences and rate the accessibility of places you've visited in Guelph. Your ratings using the easy color system—**Green** for Accessible, **Yellow** for Partially Accessible, and **Red** for Not Accessible—will guide many others in our community.

Your voice matters. Whether it's a restaurant with a barrier-free entrance or a bar with an accessible washroom, your feedback makes a difference. And if there's a spot that's not quite there yet, let's talk about it. For instance, if you rate a place Yellow, tell us why by adding a description.

Together, we can create a map of Downtown Guelph that truly reflects our community's needs. **Help us light up Guelph Green** with accessibility for all!
