THE ALEXANDER HENRY

LAKEHEAD TRANSPORTATION MUSEUM SOCIETY

The newly-formed non-profit Lakehead Transportation Museum Society (LTMS) had a dream: to bring to the city a transportation museum to showcase its rich transportation history and brought home to Thunder Bay the former Canadian Coast Guard icebreaker, the Alexander Henry.

Incorporated with the Ontario Historical Society years ago, the LTMS board first heard in September 2016 about the potential scrapping or sinking of the Alexander Henry. And they set the goal to save her.

The Henry was built in 1957-58 at the former Port Arthur Shipbuilding Co. Ltd. in Thunder Bay. She entered service on July 1, 1959 as an icebreaker and buoy tender for the Canadian Government's Department of Transport Marine Service and transferred in 1962 to the newly-created Canadian Coast Guard. The Henry is 60.29 metres (197.8 feet) in length with a beam of 13.29 m (43.6 feet), draught 5.46 m (17.9 feet), and has a massive derrick for lifting five-tonne buoys in and out of the water.

In 1984, after 26 years of service, the Henry was de-commissioned by the Canadian Coast Guard and a year later in 1985, became a museum ship at the Marine Museum of the Great Lakes. However, last summer when the museum's property was sold by the Canadian government to a private developer, the museum – including the Henry -- had to move out. Henry was towed to a temporary docking site in Picton, Ontario to await her fate.

At about the same time, LTMS received its charitable status. With a rallying cry of "Bring Henry Home" strongly supported by the community, LTMS set about to save the Henry. A deal was reached with Kingston's Marine Museum -- if LTMS would pay for the towing costs to Thunder Bay, they could purchase the Henry for a few dollars…..but it had to be all done by the museum's deadline of July 1. Could they really do it?

Saving the Henry became phase one of the LTMS's goal of establishing a transportation museum in Thunder Bay. After months of discussions, negotiations and fundraising for the approximately 1,000-mile tow through the Great Lakes, Henry arrived back home in Thunder Bay on June 27, 2018.

Our bridge extends an amazing 600 feet across the canyon and hangs at the height of 152 feet above the canyon floor. If one bridge wasn't enough, we also have our smaller bridge which spans 300 feet across and 125 feet from the bottom.

CANADA'S LONGEST ZIP LINE SUSPENSION FOOT BRIDGE

Cross the suspension bridges for an unforgettable thrill or simply witness for yourself, from an eagle's perspective, the majestic span of the bridges and absorb the beauty of your unique surroundings. View the depths of the canyon where a beautiful spring-fed lake reflects the breathtaking mountain range in the distance.

Your journey doesn't end at the top. Explore our numerous wilderness trails, follow the stairs cascading into the canyon and hike along the shoreline for a complete grand tour of the grounds.

For the ultimate thrill seeker, take a ride on Canada's longest, highest, fastest and safest zip line. At half a mile long, 175 feet high and reaching speeds in excess of 45 mph, you will soar like an eagle down the centre of the canyon for an exhilarating 60 second thrill ride to the canyon floor.

Whether you are looking for the ultimate adventure or for relaxation at an outdoor paradise, Eagle Canyon is your all-in-one destination.
